How it works

Build your own custom event registration service

Provide us with your event details through our quick and easy online start up form, or simply e-mail your event details. We then prepare your registration form and send it to you for approval or revisions.

Once you approve your form you are ready to send it to your prospective player list. You can e-mail your form or post it to a website page, print it on your posters or post it to any number of social media sites like facebook.

Online payment portal

Our Registration Service takes the administration headaches away from you! We collect the player and sponsor payments directly through your event registration page and then transfer the payments to you, before or after the event.

This saves you the hassle and cost of starting up your own online clearing account, that will come with monthly and yearly costs!

It is easy to login to your event registration account and track payments and player/sponsor information.

What are the costs?

You pay only a standard credit card clearing fee of \$2.95 per transaction, making our system the most affordable registration service you will find!
